DISA
A Combat Support Agency

Computing Services Directorate FY12 Opportunities

GIG Content Delivery Capacity Services

- **GCDS Objective:** Obtain global content delivery as a capacity service with end user performance monitoring at DISA-approved locations
  - Will utilize capacity service approach
  - Including delivery at the “edge” of the networks
  - End user performance and availability monitoring

- **Capacity Services:** Capacity Service contracts provide scalable capability utilizing an on-demand service approach for GIG Content Delivery Services, with vendor owned/maintained equipment, that will readily adjust to the Government’s requirements (increases and decreases), and is priced on a utility ("as used") basis or tiered structure

A Combat Support Agency

GCDS (continued)

- **Anticipated Start Date** – 4th Quarter, FY12
- **Predecessor Contracts** – HP Capacity Services (HC1013-07-D-2004)
- **Anticipated Small Business Involvement** – Full and Open Competition; a Subcontracting Plan required from Large Businesses
- **Anticipated Contract Type** – Firm-Fixed Price, Indefinite Delivery/Indefinite Quantity (IDIQ), Single Award
- **Potential Task Order Awards** – TBD

Enterprise Storage Solutions Capacity Services

- **ESS Objective:** Obtain dynamically scalable storage capability at all DISA-approved locations both in the continental United States and outside the continental United States (CONUS and OCONUS)
  - Utilize an “on demand” capacity service approach for new equipment
  - Provider will acquire, install, de-install, transport, configure, maintain, and provide all necessary hardware (including cabinets/racks/cabling/cable management/PDUs), related software and services
  - Government will maintain day-to-day operational control
